CODEFY
YOUR IDEAS, OUR CHALLENGE.

We are looking for

Crazy full-stack Web Developer

Codefy Software puts in motion the right people, skill sets and technologies to meet your performance objectives and your business needs, assuring support for the entire software development process.

The company offers a unique set of skills and abilities like:

- building enterprise solutions,
- feature-rich custom web applications,
- mobile applications,
- scalable cloud platforms for start-ups and
- complex computer vision applications.

All these having in mind great user experience.

What are we looking for?

- Solid programming skills in JavaScript, Type Script
- Experienced with AngularJS and/or AngularJS 2.0, Bootstrap, jQuery, HTML / HTML5, CSS / CSS3
- Experience with Node.JS, PHP
- Database: experience at least with few of the technologies: MySQL, MongoDB, Cassandra, Redis, SQL / JSON in general
- An interest in Cloud Technologies: AWS / Azure
- Creative and structured approach to software development
- Ready to dive into new technologies
- Problem solving with an eye for clean and maintainable code

What's in for you?

- Attractive package and flexible working conditions
- Actively participate in all phases of the software development life-cycle
- Join a dynamic team willing to support you all the way
- Excellent coffee and cookies
